EDUCATION

| Degree / Certificate         | Institute / Board                            | CGPA / % | Year |
|------------------------------|----------------------------------------------|----------|------|
| B.Tech in CSE                | National Institute of Technology, Patna      | 8.70     | 2026 |
| Senior Secondary (Class XII) | College of Commerce, Arts and Science — BSEB | 84%      | 2021 |
| Secondary (Class X)          | School of Science and Technology — CBSE      | 92%      | 2019 |

INTERNSHIP EXPERIENCE

- Oracle**

Project Intern

Hyderabad, India

Jan 2026 – Present

  - Working in the Session Border Controller (SBC) team to improve SIP-based communication reliability and call-routing performance across distributed systems.
  - Developing and optimizing SIP signaling flows, performing root-cause analysis, debugging, and resolving production-grade communication issues.
  - Analyzing traffic patterns and system logs to improve throughput, latency, and overall network performance.
  - Collaborating with engineers on feature development, testing, validation, and deployment of real-time communication workflows.

PROJECTS

- Chatty | MERN, Socket.IO, JWT Authentication**

React.js, Node.js, Express.js, Socket.IO, MongoDB, Zustand, Tailwind CSS, DaisyUI

GitHub Repository

  - Engineered a full-stack real-time chat platform using MERN and Socket.IO, enabling instant communication for 1000+ concurrent users with 98% uptime.
  - Integrated JWT authentication and MongoDB for secure, persistent sessions, reducing unauthorized access by 100% and improving session reliability.
  - Designed a fully responsive UI with Tailwind CSS and DaisyUI, cutting average load time by 35% and improving user engagement across all devices.
- AI Voice Assistant | MERN, Gemini API, Speech Recognition**

MERN, Web Speech API, JWT, GeminiAI API, Cloudinary, Tailwind CSS, Vercel, Render

GitHub Repository

  - Built an AI-powered voice assistant using MERN and Web Speech API, achieving 95% command recognition accuracy with real-time text-to-speech feedback.
  - Integrated GeminiAI API and REST endpoints for contextual responses, enabling multi-intent task execution like search, navigation, and note management.
  - Deployed on Vercel and Render with scalable backend and JWT-secured sessions, supporting daily interactions with minimal latency (<200ms).

SKILLS

**Programming Languages:** JavaScript, Python, Java  
**Web Development:** React.js, Node.js, Express.js, Redux, Tailwind CSS, RESTful APIs  
**Databases:** MongoDB, MySQL  
**Developer Tools:** Git, GitHub, Postman, Linux, Codex, VS Code  
**AI & Machine Learning:** OpenAI API, Natural Language Processing (NLP)  
**CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management System (DBMS), Operating Systems (OS), Computer Network

ACHIEVEMENTS / COMPETITIVE PROGRAMMING

- Solved 1600+ algorithmic problems across LeetCode, GeeksforGeeks, CodeChef and Codeforces.
- LeetCode: Knight badge, 1200+ problems solved, Max Rating 1880.
- CodeChef: 3 (Max Rating 1616).
- GeeksforGeeks: 3, Ranked 214 with 400+ problems solved.
